AEROSOLV REPLACEMENT GASKETS

Effective January 2011

Replacement gaskets work on any model Aerosolv including the 5000, 7000 & 7000XL. For best results, choose the inside diameter to match the diameter across the dome of the can – above the can shoulder. For very small cans and when the dome is too small to reach with the pin, match the outside diameter of the can body.

AEROSOLV® by Katec Inc.: The safe and easy way to puncture aerosol cans, collect the residual contents and effectively adsorb the vapors and propellant.

	#5129	Aeroprene Gasket 2” I.D. (standard) Included with every Aerosolv model. (Inside diameter: 2 inches / 51 mm)	*$8.00*
