

Pack-Master Air Spark Resistant

offered by **S&G Enterprises, Inc**

- Reduce your disposal and storage costs.
- Easy to use. Simply place a drum of material on the base, lift arm and compact it by operating the joy stick on the arm.
- Safe. Two-handed safety lever keeps the operator out of harms way.
- It's portable. Add optional wheel kit to easily move the PackMaster from department to department.
- Compaction cycle is just 30 seconds with 100 psi air supply.
- Contact surfaces covered in 1/8" Aluminum.

SPECIFICATIONS

PackMaster Air Spark Resistant

Part #10001453

DIMENSIONS:	76"h x 36"w x 27"d	Required Operating Clearance: 80"h x 38"w x 48"d
SHIPPING:	260 lbs in crate via common carrier (F.O.B. Aurora Colorado 80011) Crate Dim: 86"h x 45"x 48"	
DRUM CLEARANCE:	Height: 38"	Width: 25.25"
PRESSURE PLATE:	55 gallon: 20" diameter (standard)	30 gallon: 17" diameter (optional)
AIR CYLINDER:	Commercial grade, 6" diameter x 24" stroke length with oversized 1.75" piston rod	
AIR REQUIREMENTS:	Standard shop air (8 cfm @ 100 psi) Maximum 150 psi
