Models include 110V electric control logic inside NEMA 1 style control enclosure; TEFC motor and full-voltage, 3-phase motor starter. The Model 55SC has <u>hydraulic cycle</u> controls with full-voltage electric motor starter with Start/Stop pushbuttons.		Equipped with non-sparking PNEUMATIC control logic within NEMA 1 style control enclosure; and Class 1, Division 1, Group D explosion-proof pump motor. End user to supply their own disconnect switch and motor-starter and compressed air at 50-60 PSI. *The 55SC-P includes air motor, sound muffler, filter, lubricator and regulator with OSHA drain valve. Requires 90-PSI @ 130-SCFM.		Equipped with non-sparking HYDRAULIC control logic within NEMA 1 style control enclosure; and Class 1, Division 1, Group D explosion-proof pump motor. End user to supply their own disconnect switch and motor-starter.	

Standard Operating Voltages are 3 Phase, 60 Hertz, 208-230/460 Volts. Others are available at additional costs.

Accessories for the Models Listed Above

Drum Roll-out Dolly & Platform	Drain Chamber Floor
Alternate Size Compaction Head (CH)	Chamber Drain Tube
Bolt-on Drum Crushing Plate (CP)	
NEMA 4 Control Enclosure (water tight)	Model 5P: 40-inch Floor Stand (FS)
RAM BOTTOM Lock Toggle Control	Model 5P: Filter-Regulator-Lubricator (FRL)
Exhaust Collar (only)	

Optional Air Filtration Systems

Air Filter System Type	TEFC Electric Motor	Explosion-Proof Motor
CRN (HEPA or Charcoal)		
CRN-HC (HEPA & Charcoal)		
HANC (ANSI N510 Nuclear)		

All prices are FOB our factory in Milwaukee, Wisconsin, USA and are subject to change without notice.
